IVAN C HANIGAN.

Date of Birth 8th September, 1977
Family Married with two children
Nationality Australian

Summary I am a multidisciplinary data manager and analyst with over 10 years experience at one of Australia's leading universities. I have primarily worked in Environmental Epidemiology where I have honed my skills in manipulation of large databases and multivariate regression modelling. I also have experience of scenario-based forecasting in climate change risk assessments.

I have been the lead author on four papers in international journals, and contributing author on numerous journal papers, reports and conference presentations.

I have used the Data Documentation Initiative (DDI) international standard for metadata since 2009 to ensure the data management system is suitably documented and maintained throughout the Data Analysis Lifecycle.

My programming skills include the R language for statistical computing and graphics, SQL using Postgres and PostGIS. I also have experience with QGIS, ArcGIS, Stata, Oracle-XE, Linux (Ubuntu, Centos, RHEL).

Appointments *Australian National University*

2008–Present. Data Manager, National Centre for Epidemiology and Population Health (NCEPH).

2008–2009. Data Analyst, Environment, Climate and Health Group (NCEPH).

University of Tasmania

2008–2011. Data Manager and Analyst, Bushfire Smoke, Heatwaves and Health Project, School of Plant Science.

Charles Darwin University

2006–2007. Data Manager and Analyst, Bushfire Smoke and Health Project, School of Environmental Research.

Australian National University

2001–2006. Research Assistant Environmental Epidemiology Group (NCEPH).

Education

Australian National University

2009–Present: Part-time PhD entitled *Disentangling Health Effects of Environmental Change from Social Factors*, NCEPH and CSIRO.

Panel: Colin Butler, Philip Kokic, Rohan Nelson, Steven McEachern.

1998-2005: Bachelor of Arts in Geography and Human Ecology, First Class Honours, School of Resources, Environment and Society. ANU.

Contribution to Teaching and Learning

- I5. I have sat on several selection panels for job interviews both at NCEPH and for other Centres at the University.
- I4. Training in software programming, data analysis and data management for staff and students.
- I3. I organise weekly topics and speakers for the ANU GIS Forum meetings.
- I2. I contribute to ANU wide data management meetings with the Australian Data Archives and the National Supercomputer facility.
- I1. I contributed Drought Severity data to several papers by members of the Collaboration on Drought, Drying and Rural Mental Health.

Technical
courses
attended

- J9. Computing for Data Analysis, 24 Sep - 27 Oct 2012. Prof Roger Peng
Johns Hopkins Bloomberg School of Public Health, Coursera.
- J8. Bayesian Hierarchical Modelling of Spatial and Temporal Data, 21-23
November 2011, CSIRO/ANU, Canberra, ACT.
- J7. Statistical Data and Metadata eXchange (SDMX) standard and tools.
24 March 2010, Australian Bureau of Statistics.
- J6. Australian Weather and Society Integrated Studies Workshop. 29th –
2nd February 2007. Emergency Management Australia, Mount Mace-
don, VIC.
- J5. Spatial Analysis in Environmental and Social Epidemiology. 5th - 8th
September 2005. The Australian National University, Canberra.
